**Excellence permeates  
every aspect of our work**

---

# Introduction

IBS excels in providing a full range of world class Integrated solutions from Design, Engineering, Supply, Installation, Commissioning & Maintenance services for Fire Protection, Fire & Gas Detection, Electromechanical and Instrumentation systems.

New IBS's extensive reach to local and international EPC Contractors, its in-house Technical Capabilities and collaborations with leading manufacturers for diverse range of products, enriches its competency in meeting requirements of turnkey projects along with service and maintenance throughout the Middle East for Oil & Gas, Petrochemicals, Power .Generation & Distribution, Infrastructure & Commercial divisions

IBS has its Head Office located in Al Khobar and has branch offices and support centers in Jubail, Riyadh and Jeddah. It also has Sales and Service Support office in the Kingdom of Bahrain.

## Capabilities

IBS brings to the table state-of-the-art solutions for the critical industrial and commercial facilities requiring the highest standards of Fire Protection EPC Works, Service & .Maintenance of Fire Protection Systems, Fire & Gas Detection Systems

Whether small or large, IBS has the resources, products and the expertise to handle Services from start to finish.

For every Services or project contract we handle, we assign a dedicated team comprising qualified and experienced staff to ensure that all services are delivered according to schedule and within budget.

# Our Vision

To empower communities with advanced fire safety solutions, creating a future where every space is secure, and every individual is informed.

## Our Mission

Our mission is to provide top-tier fire protection and detection solutions that ensure the safety of lives and properties. We are dedicated to:

1. **Comprehensive Solutions:** Offering a full range of fire safety services, including risk assessments, system design, installation, and maintenance, tailored to meet the unique needs of our clients.
2. **Customer-Centric Approach:** Building lasting relationships with our clients through exceptional service, transparency, and a commitment to understanding their specific fire safety challenges.
3. **Continuous Improvement:** Investing in the latest technologies and training to enhance our services and stay ahead of industry standards, ensuring our clients receive the most effective fire protection solutions.
4. **Community Engagement:** Actively participating in community outreach and education programs to raise awareness about fire safety and prevention, empowering individuals to take proactive measures.
5. **Integrity and Trust:** Upholding the highest ethical standards in all our operations, ensuring that our clients can trust us to protect what matters most to them.

Through our commitment to excellence and innovation, we strive to be the partner of choice for fire protection and detection, safeguarding lives and properties for a safer tomorrow.

# Company Business Verticals

## Riyadh Al Nassar

With over 30 years of experience etched in the annals of engineering, project management, planning, maintenance, and leadership across the petrochemical, fertilizer, utility, and mining industries, I, Riyadh Al Nassar, feel honored to serve as Chairman of Industrial Basic Solutions (IBS). Witnessing this company's growth and impact fills me with immense pride.

At the heart of IBS lies a legacy of Integrity and Ethics. For the past years, we have held true to these values, navigating challenges and capitalizing on opportunities with building trusted partnerships for enduring success as our compass.

But it's not just values that propel us forward. It's our people. I am humbled to lead a team of exceptional individuals who share my passion for excellence and my unwavering commitment to build trusted partnerships.

Looking back, I am immensely proud of what we have achieved. We have achieved company growth and Development, and these milestones stand as testaments to our collective passion and dedication. However, we don't rest on our laurels. We are driven by a constant thirst to make a positive impact, venturing into new avenues with unwavering resolve.

The future of IBS is painted with the vibrant hues of opportunity. With our rich experience, talented team, and unwavering commitment to excellence, I am confident that we will continue to scale new heights, together. As Chairman, I invite you to join us on this exciting journey, to explore our profile further, and to witness the incredible potential that lies ahead.

Sincerely,

Riyadh Al Nassar Chairman, IBS

## Nadeem Shamsi

It is with immense pride and a burning passion for safety that I stand before you today as the Chief Executive Officer of IBS. My journey in the fire protection field, spanning over 30 years since graduating in mechanical engineering from the esteemed Aligarh Muslim University, has led me through diverse leadership roles across India and the Kingdom of Saudi Arabia. This tapestry of experience has woven within me a profound understanding of building and nurturing winning teams, driving strategic business development, and executing complex projects with precision.

My expertise lies in the very foundations of IBS's success: effective team management and leadership, fostering a culture of excellence in fire protection design, estimation, and value & project engineering. My meticulous adherence to international standards like NFPA, TAC, OISD, NBC(India), FM Global, and HCIS KSA ensures every project we undertake embodies the highest levels of safety and reliability.

But beyond technical mastery, it is the human element that fuels the fire within IBS. We are a cohesive unit, bound by a shared purpose: to be the preeminent fire protection specialists, safeguarding lives and assets across the region. This responsibility weighs heavily on me, for I have witnessed firsthand the devastating consequences of fire. It is this very awareness that drives our unwavering commitment to excellence, pushing us to constantly innovate, embrace cutting-edge technologies, and prioritize sustainable practices.

As IBS enters a new chapter, I am filled with excitement for the opportunities that lie ahead. We will continue to expand our footprint, deepen our expertise, and forge strategic partnerships that leverage our collective strengths. We will become a beacon of knowledge and expertise in the fire protection industry, inspiring others with our commitment and leading the way towards a safer future for all.

But at the heart of it all, we will remain true to our core values: integrity, professionalism, and an unwavering commitment to safety. These are not just words on a page; they are the guiding stars that illuminate our path, reminding us that our work transcends mere profit - it is about protecting lives and building a legacy of safety for generations to come.

I am confident that with your dedication, your trust, and your unwavering support, IBS will not only rise to the challenges of the future but redefine the very landscape of fire protection. Together, we will conquer every fire, safeguard every life, and illuminate the path towards a brighter, safer world.

Thank you for joining me on this journey.

Sincerely,  
Nadeem Shamsi  
Chief Executive Officer and Board Member, IBS Company

## Mohammed Alasfoor

A seasoned entrepreneur and business development specialist with over 13 years of diverse industry experience spanning construction, oil and gas, manufacturing, infrastructure projects, marine services, and real estate.

As the Founder and Chairman of Professional Way Holding, headquartered in the Kingdom of Bahrain, Mohamed leads a dynamic organization specializing in industrial services, strategic sourcing, human capital management, marine services, and consultancy.

Mohamed has played a pivotal role in numerous high-impact projects, including the strategic sourcing and management of human capital for a USD 1.1 billion endeavor—the Bahrain Airport Modernization Project—demonstrating his exceptional leadership and strategic vision.

With a Bachelor's Degree in Business & Finance Administration, Mohamed combines academic expertise with practical industry knowledge to drive innovation and excellence in every aspect of his work.

## Khalid Abdullatif Al-Turki

Khalid A. Al-Turki offers over 35 years of comprehensive experience in project development, encompassing all stages from initial concept and feasibility studies to project execution, engineering, construction, and final handover to the owner. His career trajectory showcases a strong foundation in technical expertise followed by a successful transition into project leadership and management.

**Early Career: Building Technical Expertise (1981-1988)** Mr. Al-Turki's career commenced in the petrochemical industry, where he honed his technical skills through the first six and a half years at Eastern Petrochemical Co. "SHARQ," a SABIC affiliate. He gained valuable experience in plant construction, preventive and corrective maintenance through plant inspection, re-engineering work, and long-range planning for plant improvement and maintenance. Notably, the initial three years involved working in Japan, exposing him to international best practices.

**Project Management and Leadership (1988-2012)** In 1988, Mr. Al-Turki transitioned to project leadership, joining SAUDI ARABIAN FERTILIZER CO. "SAFCO" as a Project Engineer in the New Projects Department. He played a pivotal role in preparing the feasibility study for a new plant in Al-Jubail (1500 ton/day Ammonia and 1800 ton/day Urea), valued at 350 million US dollars.

He saw the project through to successful commissioning in 1993. Demonstrating his versatility, Mr. Al-Turki managed projects across various stages. He then oversaw the construction of a product-handling facility at KING FAHAD INDUSTRIAL PORT in Al-Jubail, handling everything from preparing bid documents to ensuring smooth operation. His leadership continued with a role as Engineering and Inspection Superintendent in the Technical Department.

Recognizing his expertise, Mr. Al-Turki was entrusted with preparing the Invitation to Bid documents for SAFCO's 3rd Ammonia/Urea Project in 1996. He remained involved in the project until its completion in 2000. Further demonstrating his project development cycle mastery, Mr. Al-Turki prepared a prefeasibility study for the SAFCO-IV (Ammonia/Urea) project in 2001. He subsequently led the project execution, ensuring successful plant operation by 2006. In 2006, he leveraged his project management skills at Saudi Arabian Mining Co. "MAADEN" for a phosphate project. From 2008 to 2012, he held the position of "Commercial & Projects Controls Manager," demonstrating his ability to manage both project execution and financial aspects.

Since 2012, Mr. Al-Turki has applied his extensive experience as a, offering his expertise to various clients.

## Muslat Al Bogami

Overall, Muslat Al Bogami's career path reflects a well-rounded professional with a strong foundation in administration and government affairs who transitioned to a successful and lengthy career in safety and security management.

1978-1980: Muslat Al Bogami began his career as an Admin & Government Affairs Manager at INCISA. This role likely involved overseeing administrative tasks and building relationships with government entities.

1981-1985: Mr. Al Bogami transitioned to a similar role as Admin & Government Affairs Manager at Geldamaster, working within the Royal Commission for Jubail and Yanbu. This experience further honed his administrative skills and solidified his understanding of navigating government relations within a crucial industrial development project.

### Extensive Experience in Safety and Security Management (1986-2006)

1986-2003: Mr. Al Bogami made a significant shift towards safety and security by taking on the role of Safety & Security Manager at Sasref. This 18-year tenure demonstrates a strong commitment to this field and likely involved developing and implementing safety protocols, managing security personnel, and ensuring a safe work environment for a substantial organization.

2004-2006: He continued his focus on safety and security by serving as Safety & Security Manager at Marafiq. This experience indicates his ability to adapt his expertise to different organizational contexts.

# Fire Protection System EPC Division

IBS's Core Team comprises of highly qualified & experienced, industry renowned astute professionals, who persistently deliver world class services and optimized solutions. The team takes pride in offering specialized services in

1. Scope of Work Development
2. Design Validation
3. Risk Management & Value Engineering
4. Debottlenecking in construction management
5. Project Management & Planning
6. Turnkey Project Execution
7. Product Optimization
8. Global Sourcing

IBS offers complete solutions for following systems:

## I. Water Based Systems

1. Sprinkler Systems
2. Deluge Systems
3. Water Mist Systems (High & Low)
4. Pre-action System
5. Hydrant Network System
6. Fire Fighting Pumps

## II. Foam Systems

1. Low / Medium expansion system
2. High expansion system

## III. Gas Suppression Systems

1. FK-5-1-12 System (Novec 1230)
2. HFC-227ea System (FM200)
3. CO2 Systems (LP/HP)
4. Inert Gas Systems

## IV. Chemical Suppression Systems

1. Wet Chemical System
2. Dry Chemical System

## V. Fire & Gas Detection and Alarm System

1. Intelligent Addressable Fire Detection and Alarm System
2. Voice Evacuation System
3. Very Early Warning Fire Detection System
4. Flame & Gas Detection
5. Linear Heat Detection (LHD)
6. Siren System

# Service & Maintenance Fire Protection Systems

**IBS** is committed to provide comprehensive service and maintenance for the entire range of fire protection, fire suppression and fire detection systems in compliance with NFPA codes, and Manufacturer's weekly, monthly, half-yearly, yearly preventive maintenance.

- Periodic Inspection, Testing and Maintenance to measure fire systems' reliability to comply with National and Local Civil Defense / HCIS & NFPA requirements
- Provision of on-site manpower to meet critical service challenges
- 24hour support for emergency call-outs
- Site Surveys, for both HCIS or Civil Defense Certification
- Corrective maintenance services and additional site works
- Hydrotesting of various system cylinders / fire hoses Laboratory Testing / Certification of firefighting foams
- Special Services such as Room Integrity Tests (Door Fan Tests/Concentration Tests)
- Gas detector test / calibration

System renovation work to meet NFPA standards and local civil defense Requirements

- Treating, re-painting and full refurbishment of all firefighting equipment
- Major repair / modification of firefighting
- Refilling / Repair for gas cylinders including CO<sub>2</sub>, Novec 1230 & FM200.
- Laboratory Testing / Certification of firefighting foams

## **Corrective Maintenance:**

The task performed to identify, isolate and rectify a fault so that the failed equipment or system can be restored to an operational condition. It involves the replacement or repair of the equipment after it fails.

## **Preventive Maintenance:**

The act of performing regularly scheduled maintenance activities to prevent unexpected failures in the future. It includes cleaning of equipment to minimize dirt and dust, lubricate rotating parts & repair or replace before it fails.

# Inspection, Planning and Testing

## Inspections:

A formal process used to identify errors in a system according to standards. Visual inspection for fire equipment includes tags validity, troubles occurred, pressures, etc.

## Planning:

Planning to perform the Corrective and Preventive maintenance along with monthly inspections according to the schedule through work orders. Plan to allocate the team in different sections to achieve efficient work in the given time frame.

## Testing of Installed Systems:

Our teams are qualified and certified to perform Testing of the systems installed by others on behalf of our clients during preventive maintenance schedule or as a separate service on periodic basis to certify the performance of the installed systems. Test reports highlighting concerns if any are generated by our team for review and related action by the concerned authorities/team.

## Method:

Performance of planned corrective and preventive maintenance services in line with Manufacturer's recommendations and NFPA standard inclusive of:

- Day-to-day operation and inspection
- Weekly/Monthly Inspections
- Quarterly Testing/Inspections
- Semi-annual Services Testing/Inspections
- Annual Services Testing/Inspections
- 24-hour On Call emergency support services
- System modifications and extensions
- System inspections and design audits
- Training services for all systems under our product range
- Refilling of portable Fire Extinguishers
- Refilling of Gas-based Fire Suppression Systems

# List of Projects Executed by IBS

S. No	Project Name	Year	Region	Contractor	End User	Scope of Work
1	Hilton KF Causeway Hotel, Al Khobar, Eastern Province, KSA	2022	East	Al Mousa Investment Company	Hilton Hotels & Resorts	Design, Supply, Installation, Testing & commissioning of Fire hydrants, Sprinklers and Fire Fighting pumps
2	Hilton KF Causeway Hotel, Al Khobar, Eastern Province, KSA	2022	East	Al Mousa Investment Company	Hilton Hotels & Resorts	Design, Supply, Installation, Testing & commissioning of Fire alarm network system w/ ONXY software and workstation
3	King Salman Int'l Complex for Maritime Industries & Services	2022	East	SEPCO Arabia	Int'l Complex for Maritime Industries (IMI)	Grouting works for Sepco P#4 Access Tower Base Plates
4	Typhoon Additional works at King Fahad Air Base (KFAB), Taif	2023	West	Arabian Castle General Contracting (ACGC)	Royal Saudi Air Force	Design, Supply, Testing & Commissioning of Fire Protection System
5	Al Majma'ah Air Base	2023	Central	Arabian Castle General Contracting	Royal Saudi Air Force	Supply & Delivery of Fire Pump with Accessories
6	MRU Section 2 & 3 at King Fahad Air Base (KFAB), Taif	2023	West	Arabian Castle General Contracting	Royal Saudi Air Force	Design, Supply, Testing & Commissioning of Fire Protection System
7	New FMS Construction	2023	East	GS Constructions Arabia	GS Constructions Arabia	Design, Consultation, Supply, Testing & Commissioning of Fire Fighting System of New GSCA FMS
8	Expansion of Existing Yanbu, Umluj, Al-Wajh 380 kV Substations	2023	West	ALFANAR Constructions	Saudi Electricity Company	Supply of Fire Fighting Material
9	Expansion of Existing Yanbu, Umluj, Al-Wajh 380 kV Substations	2024	West	ALFANAR Constructions	Saudi Electricity Company	Supply of Fire Hydrant Pipes & Fittings
10	NEOM High Density Community 1 Expansion -Residential units and central Amenities	2024	North	ALFANAR Constructions	Neom	Design, Supply, Installation, Testing and Commissioning of Fire Alarm System
11	Tornado Support Service at King Abdul Aziz Airbase (KAAB), Dhahran	2024	East	Arabian Castle General Contracting	Royal Saudi Air Force	Upgradation of Fire Detection & Alarm Systems in TSS & TMSC Buildings
12	Layla Solar Power Plant	2024	Central	Jakson Arabia Limited	Acwa Power	Design, Supply, Installation Testing & Commissioning of Fire Alarm & Fire Fighting Systems.
13	Qatif Baladiya Building	2024	East	Al-Habashi Contracting Company	Qatif Baladiya	Design, Supply, Installation, Testing & Commissioning of HFC227ea Clean agent system.
14	HCIS Safety and Fire Systems Site Upgrade – Jabel Sayid Mines	2024	West	Maaden Barrick Copper Company	Maaden Barrick Copper Company	Design, Supply, Installation Testing & Commissioning of Fire Alarm & Fire Fighting Systems.

# Suppliers

IBS works with many of the world's top manufacturers and suppliers including local & international suppliers.

# IBS Distinguished Clients

IBS works directly and indirectly with many of Saudi Arabia's most distinguished institutions and numerous multinational corporations.

## Registration Approval Letter

November 07, 2024

**Attention : INDUSTRIAL BASIC SOLUTIONS COMPANY**

**CR Number : 2051244364**

**Supplier Type: Service Provider Only**

**Country : Saudi Arabia**

We are pleased to inform you that INDUSTRIAL BASIC SOLUTIONS COMPANY is now registered in the Saudi Aramco Supplier Management System under Vendor Code No. 10114201, provided your company continues to meet all relevant Saudi Arabian and Saudi Aramco standards.

This registration, however, should not be construed as a commitment by Saudi Aramco to procure from you. Being registered as a supplier only grants your company the opportunity, along with other registered sources, to respond to requests for submitting proposals in accordance with Saudi Aramco's established policies and procedures. All procurement instruments including but not limited to service contracts, purchase agreements, or purchase orders will be issued based on the name and address included in your commercial registration (CR), as stated in your Supplier Registration.

Saudi Aramco wishes to remind you that being recognized as a supplier carries with it serious obligations and responsibilities to act in a legal and ethical manner. We wish to remind you of the Saudi Aramco Supplier Code of Conduct (SCOC) which you acknowledged. Failure to abide by the principles set forth in the SCOC can result in adverse actions being taken by Saudi Aramco against you including suspension of you as a supplier. Saudi Aramco also expects each of its suppliers to satisfy each of the requirements of any procurement instrument which might be placed and to act responsibly and reliably as a supply chain supplier.

Material Suppliers should apply for Saudi Aramco Supplier Portal access by forwarding a request to [portal-registration@aramco.com](mailto:portal-registration@aramco.com). The Supplier Portal is the main electronic business tool used between Saudi Aramco and its suppliers and serves to improve the flow and accuracy of key supply chain information.

For further information or assistance please contact the Saudi Aramco Supplier Help Desk by forwarding a request to [SupplierHelpDesk@aramco.com](mailto:SupplierHelpDesk@aramco.com) or via the unified call center 800-116-1168 for In-Kingdom suppliers or +966 (11) 290-8950 for Out-of-Kingdom suppliers.

Faisal Hamad Al Dossary, Supervisor  
**Supplier Registration Unit**  
**Supplier Relationship Management Div**

It is the responsibility of the supplier to update Saudi Aramco Supplier Registration Profile through Ariba for the following:

1. Change of Name / Commercial Registration Number / Address / Owner(s)
2. Any change of the supplier location
3. Discontinue supply of approved commodities (9COMs and 9CATS)

This is an electronically generated letter by Saudi Aramco. To verify Supplier approval status, please contact Supplier Help Desk at [supplierhelpdesk@aramco.com](mailto:supplierhelpdesk@aramco.com)

**SUBJECT: QUALIFICATION**

Dear Sir,

Based on our assessment, we are pleased to inform that M/s Industrial Basic Solutions Co. is now qualified vendor of Alfanar Projects for supply of Fire Alarm System and Firefighting system.

Qualification means that M/s Industrial Basic Solutions Co. is eligible to receive requests for quotations and orders for the designated materials, but this approval should not be considered as a commitment by Alfanar Projects to send Request for Quotation or procure materials from M/s Industrial Basic Solutions Co.

Thanks for your interest in being a supplier to Alfanar Projects.

Best Regards,

  
31032024
